

ACRONIS-POWERED. SOTERIA CLOUD DELIVERED.

Soteria Cloud Cyber Protect Cloud

One cloud platform for backup, cyber protection, management, and recovery.

Cyber protection platform

Managed protection

Zero Downtime. Zero Data Loss.

BUILT FOR

For businesses and MSPs that want fewer tools, faster recovery, and a single operational view of protection.

Security tools, backup tools, and management tools often live in separate silos. That creates blind spots when downtime, ransomware, user error, or device failure hits.

Acronis Powered by Acronis

The screenshot displays the Soteria Cloud dashboard. On the left is a navigation menu with 'CLIENTS' selected. The main area shows a table of tenants under the 'Cyber Protection' view. The table has columns for Name, Tenant status, Management mode, Billing mode, 2FA status, and 7-day history. Two tenants are listed: 'Partner Workspace 1' and 'Soteria Cloud Internal'. Below the table is a caption: 'Tenant coverage and protection readiness view'.

Name	Tenant status	Management mode	Billing mode	2FA status	7-day history
Partner Workspace 1	Active	Full access	Service-based (per workload)	Enabled	
Soteria Cloud Internal	Active	By canister provider	Service-based (per workload)	Enabled	

BUSINESS VALUE

Protection that moves the business forward.

Security tools, backup tools, and management tools often live in separate silos. That creates blind spots when downtime, ransomware, user error, or device failure hits.

SOTERIA CLOUD OUTCOME

One cloud platform for backup, cyber protection, management, and recovery. Soteria Cloud surrounds the technology with onboarding, policy design, reporting, and accountable support.

TECHNOLOGY

Acronis Cyber Protect Cloud

BEST FIT

For businesses and MSPs that want fewer tools, faster recovery, and a single operational view of protection.

SERVICE CATEGORY

Cyber protection platform

01

Reduce tool sprawl across backup and security

02

Recover workloads and SaaS data with more confidence

03

Give service teams a single protection story to sell and support

CAPABILITIES

One Soteria Cloud service around the critical work.

The service brings Acronis technology into a Soteria Cloud experience for buyers that need protection to be practical, visible, and supportable.

Core capabilities

- Workload backup and recovery
- Endpoint and server protection
- Microsoft 365 and Google Workspace protection options
- Remote monitoring and management options
- Central policy, monitoring, and reporting
- Service provider-ready tenant management

Where it fits

- Standardize customer protection packages
- Replace fragmented backup and endpoint tools
- Create a recurring cyber resilience service

Acronis-powered protection stack

Soteria Cloud branding, onboarding, and support

Aligned with Total Data Protection positioning

SERVICE EXPERIENCE

From first assessment to ongoing assurance.

Soteria Cloud turns the product capability into a managed protection experience with clear steps, ownership, and review points.

Discovery and workload inventory

The capability becomes part of a managed Soteria Cloud protection experience.

Policy design by workload type

Protection requirements are mapped into practical settings, policies, and responsibilities.

Backup, security, and management rollout

The service is deployed with structured onboarding, visibility, and support ownership.

Ongoing reporting and support

Ongoing reporting, recovery checks, and service reviews keep protection measurable.

OFFER	Soteria Cloud Cyber Protect Cloud
POWERED BY	Acronis Cyber Protect Cloud
BUSINESS IMPACT	Reduce risk, improve resilience, and make protection easier to understand across technical and business stakeholders.
NEXT STEP	Start with a Soteria Cloud protection assessment for the environment, workloads, users, and recovery priorities.

SOTERIA CLOUD

All your data. One strategy. Zero compromise.

Cyber resilience works best when backup, security, recovery, and support are connected under one service experience.
