

ACRONIS-POWERED. SOTERIA CLOUD DELIVERED.

Soteria Cloud DeviceLock DLP & Discovery

Discover and control sensitive data movement at the endpoint.

Endpoint data control

Managed protection

Zero Downtime. Zero Data Loss.

BUILT FOR

For organizations that need endpoint-level control over data leakage, removable media, and sensitive file exposure.

Sensitive data can leave through endpoints before central systems ever see the risk.

BUSINESS VALUE

Protection that moves the business forward.

Sensitive data can leave through endpoints before central systems ever see the risk.

SOTERIA CLOUD OUTCOME

Discover and control sensitive data movement at the endpoint. Soteria Cloud surrounds the technology with onboarding, policy design, reporting, and accountable support.

TECHNOLOGY

Acronis DeviceLock DLP and Discovery

BEST FIT

For organizations that need endpoint-level control over data leakage, removable media, and sensitive file exposure.

SERVICE CATEGORY

Endpoint data control

01

Find sensitive data on endpoints

02

Control risky device and channel usage

03

Support compliance with practical endpoint evidence

CAPABILITIES

One Soteria Cloud service around the critical work.

The service brings Acronis technology into a Soteria Cloud experience for buyers that need protection to be practical, visible, and supportable.

Core capabilities

- Endpoint DLP controls
- Device and port control
- Content discovery
- Policy enforcement
- Activity logging
- Compliance reporting

Where it fits

- Removable media control
- Sensitive data discovery
- Regulated endpoint governance

Endpoint DLP and discovery capability

Soteria Cloud implementation and support

Complements Advanced DLP packages

SERVICE EXPERIENCE

From first assessment to ongoing assurance.

Soteria Cloud turns the product capability into a managed protection experience with clear steps, ownership, and review points.

Endpoint data risk review Soteria Cloud reviews the environment, key risks, and resilience priorities before rollout.	Discovery scan planning Protection requirements are mapped into practical settings, policies, and responsibilities.	DLP policy rollout Protection requirements are mapped into practical settings, policies, and responsibilities.	Ongoing governance reporting Ongoing reporting, recovery checks, and service reviews keep protection measurable.
