SPECIFICATIONS

Capabilities, fit, and service coverage.

Protection services depend on storage that is resilient, scalable, and operationally manageable.

OFFER

Soteria Cloud Cyber Infrastructure

TECHNOLOGY

Acronis Cyber Infrastructure

CATEGORY

Storage and infrastructure

PRIMARY FIT

For service providers and organizations that need scalable storage infrastructure under a cyber resilience strategy.

PROTECTION PROMISE

Resilient storage infrastructure for backup, file, and service provider workloads.

SERVICE MODEL

Soteria Cloud onboarding, support, reporting, and review

Included capabilities

- Software-defined storage
- Backup gateway options
- S3-compatible storage use cases
- Storage appliance support
- Multi-node infrastructure design
- Operational monitoring

Business outcomes

- Support protected storage growth
- Improve resilience for backup and file services
- Create infrastructure that supports recurring cyber resilience services

COMMON USE CASES

Backup storage platform; Service provider storage layer; Private or hybrid cyber resilience infrastructure

SERVICE COMPONENTS

Infrastructure sizing; Storage design; Deployment and integration; Monitoring and lifecycle support

SOTERIA CLOUD VALUE

Protection delivered with practical implementation, operational visibility, and support ownership.

PROOF POINTS

Acronis Cyber Infrastructure technology; Soteria Cloud architecture and support; Supports cloud and hybrid protection offers

TOTAL DATA PROTECTION

Zero Downtime. Zero Data Loss.

Soteria Cloud helps protect the workloads, identities, users, and services that keep the business moving.
