

RMM AND ENDPOINT OPERATIONS

Soteria Cloud Advanced Management

Operational management that supports protection, patching, and endpoint reliability.

For MSPs and IT teams that need endpoint visibility and management inside the same cyber resilience conversation.

Executive issue: A protected device that is unmanaged, unpatched, or invisible can still become a business risk.

- 01 Improve endpoint operational visibility**
- 02 Make protection policies easier to maintain**
- 03 Connect management and security into one service package**

EXECUTIVE BRIEF

Acronis
Cyber Protect Cloud

Complete cyber protection.
Simplified.

Risk
Identify and prioritize what matters most.

Control
Apply proven protection across your environment.

Outcome
Ensure business continuity and drive better results.

Secure. Compliant. Always Protected.
Back up, protect, and recover everything from a single cloud-native platform.

Complete Data Protection | Built-in Cybersecurity | Easy to Manage and Automate | Scalable for Any Business

EXECUTIVE CONTEXT

The business reason this matters.

The brief frames the operational pressure, the commercial reason to act, and the outcomes leadership should expect from the Soteria Cloud approach.

BUSINESS ISSUE

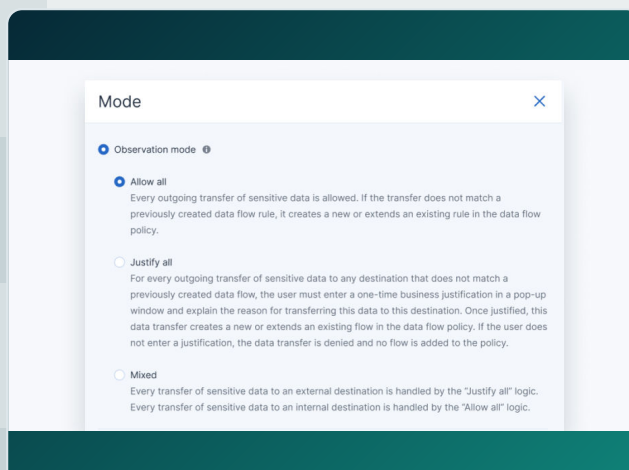

A protected device that is unmanaged, unpatched, or invisible can still become a business risk.

SOTERIA CLOUD POSITION

Operational management that supports protection, patching, and endpoint reliability. Soteria Cloud packages the capability around business outcomes, operational ownership, and a clearer path from decision to adoption.

BEST FIT

- Managed endpoint operations
- Backup and security policy hygiene
- Customer environment standardization

From operational pressure to board-ready confidence.

Visual evidence and structured service packaging help buyers understand the path from risk to outcome.

01

Improve endpoint operational visibility

02

Make protection policies easier to maintain

03

Connect management and security into one service package

DECISION PATH

How the offer becomes an executive outcome.

Soteria Cloud positions the capability as a managed operating model, not a disconnected tool purchase.

DECISION DRIVERS

Remote monitoring and management

Patch and software management options

Hardware and software inventory

Policy-based operations

PROOF POINTS

- Acronis management capability
- Soteria Cloud operational framing
- Works with backup, EDR, and remote support
