

CLOUD WORKLOAD PROTECTION

Soteria Cloud Cloud Security

Visibility and control for cloud workloads,
networks, and security posture.

For organizations building on Azure or cloud infrastructure
that need clearer control over exposure and configuration
risk.

Executive issue: Cloud environments move quickly.
Misconfiguration, weak visibility, and unmanaged
network exposure create avoidable risk.

- 01 Improve cloud security posture**
- 02 Control network exposure with clearer policy**
- 03 Support cloud governance without slowing delivery**

EXECUTIVE BRIEF

Acronis
Cyber Protect Cloud

- Scalable for Any Business

EXECUTIVE CONTEXT

The business reason this matters.

The brief frames the operational pressure, the commercial reason to act, and the outcomes leadership should expect from the Soteria Cloud approach.

BUSINESS ISSUE

Cloud environments move quickly. Misconfiguration, weak visibility, and unmanaged network exposure create avoidable risk.

SOTERIA CLOUD POSITION

Visibility and control for cloud workloads, networks, and security posture. Soteria Cloud packages the capability around business outcomes, operational ownership, and a clearer path from decision to adoption.

BEST FIT

- Azure security baseline
- Cloud firewall and exposure review
- Governed cloud workload onboarding

From operational pressure to board-ready confidence.

Visual evidence and structured service packaging help buyers understand the path from risk to outcome.

01

Improve cloud security posture

02

Control network exposure with clearer policy

03

Support cloud governance without slowing delivery

DECISION PATH

How the offer becomes an executive outcome.

Soteria Cloud positions the capability as a managed operating model, not a disconnected tool purchase.

DECISION DRIVERS

Cloud security posture visibility

Azure onboarding guidance

Smart firewall capabilities

Configuration and policy review

PROOF POINTS

- Acronis Cloud Security capability
- Soteria Cloud implementation support
- Positioned for practical cloud governance
