

CYBER PROTECTION PLATFORM

Soteria Cloud Cyber Protect Cloud

One cloud platform for backup, cyber protection, management, and recovery.

For businesses and MSPs that want fewer tools, faster recovery, and a single operational view of protection.

Executive issue: Security tools, backup tools, and management tools often live in separate silos. That creates blind spots when downtime, ransomware, user error, or device failure hits.

- 01 Reduce tool sprawl across backup and security**
- 02 Recover workloads and SaaS data with more confidence**
- 03 Give service teams a single protection story to sell and support**

EXECUTIVE BRIEF

Acronis
Cyber Protect Cloud

Complete cyber protection.
Simplified.

Risk
Identify and prioritize what matters most.

Control
Apply proven protection across your environment.

Outcome
Ensure business continuity and drive better results.

Secure. Compliant. Always Protected.
Back up, protect, and recover everything from a single cloud-native platform.

Complete Data Protection | Built-in Cybersecurity | Easy to Manage and Automate | Scalable for Any Business

EXECUTIVE CONTEXT

The business reason this matters.

The brief frames the operational pressure, the commercial reason to act, and the outcomes leadership should expect from the Soteria Cloud approach.

BUSINESS ISSUE

Security tools, backup tools, and management tools often live in separate silos. That creates blind spots when downtime, ransomware, user error, or device failure hits.

SOTERIA CLOUD POSITION

One cloud platform for backup, cyber protection, management, and recovery. Soteria Cloud packages the capability around business outcomes, operational ownership, and a clearer path from decision to adoption.

BEST FIT

- Standardize customer protection packages
- Replace fragmented backup and endpoint tools
- Create a recurring cyber resilience service

From operational pressure to board-ready confidence.

Visual evidence and structured service packaging help buyers understand the path from risk to outcome.

01

Reduce tool sprawl across backup and security

02

Recover workloads and SaaS data with more confidence

03

Give service teams a single protection story to sell and support

DECISION PATH

How the offer becomes an executive outcome.

Soteria Cloud positions the capability as a managed operating model, not a disconnected tool purchase.

DECISION DRIVERS

Workload backup and recovery

Endpoint and server protection

Microsoft 365 and Google Workspace protection options

Remote monitoring and management options

PROOF POINTS

- Acronis-powered protection stack
- Soteria Cloud branding, onboarding, and support
- Aligned with Total Data Protection positioning
