

ON-PREMISES PROTECTION

Soteria Cloud Cyber Protect On- Prem

On-premises cyber protection for organizations that need local control with modern protection outcomes.

For teams with on-premises workloads, strict local control requirements, or hybrid architecture commitments.

Executive issue: Local infrastructure still needs modern backup, anti-malware, vulnerability awareness, and recovery planning.

- 01 Modernize on-premises workload protection**
- 02 Connect backup and security into one operating model**
- 03 Support hybrid resilience planning**

Secure. Compliant. Always Protected.
Back up, protect, and recover everything from a single cloud-native platform.

Complete Data Protection | Built-in Cybersecurity | Easy to Manage and Automate | Scalable for Any Business

EXECUTIVE CONTEXT

The business reason this matters.

The brief frames the operational pressure, the commercial reason to act, and the outcomes leadership should expect from the Soteria Cloud approach.

BUSINESS ISSUE

Local infrastructure still needs modern backup, anti-malware, vulnerability awareness, and recovery planning.

SOTERIA CLOUD POSITION

On-premises cyber protection for organizations that need local control with modern protection outcomes. Soteria Cloud packages the capability around business outcomes, operational ownership, and a clearer path from decision to adoption.

BEST FIT

- Hybrid protection strategy
- Local server and workstation protection
- Modernization of legacy backup environments

From operational pressure to board-ready confidence.

Visual evidence and structured service packaging help buyers understand the path from risk to outcome.

01

Modernize on-premises workload protection

02

Connect backup and security into one operating model

03

Support hybrid resilience planning

DECISION PATH

How the offer becomes an executive outcome.

Soteria Cloud positions the capability as a managed operating model, not a disconnected tool purchase.

DECISION DRIVERS

On-premises backup and recovery

Anti-malware and protection controls

Management server architecture

Security hardening guidance
