

FILE SYNC, SHARE, AND ACCESS

Soteria Cloud Secure File Services

Secure file collaboration for teams that need control, access, and continuity.

For organizations that need secure file access and sharing without losing governance over business data.

Executive issue: File sharing spreads data quickly. Without the right controls, productivity can become a visibility and compliance gap.

- 01 Enable secure file access and collaboration**
- 02 Improve control over business file sharing**
- 03 Support recovery and continuity for file workflows**

EXECUTIVE CONTEXT

The business reason this matters.

The brief frames the operational pressure, the commercial reason to act, and the outcomes leadership should expect from the Soteria Cloud approach.

BUSINESS ISSUE

File sharing spreads data quickly. Without the right controls, productivity can become a visibility and compliance gap.

SOTERIA CLOUD POSITION

Secure file collaboration for teams that need control, access, and continuity. Soteria Cloud packages the capability around business outcomes, operational ownership, and a clearer path from decision to adoption.

BEST FIT

- **Secure remote work**
- **Controlled customer and team file sharing**
- **Modernization of legacy file access**

From operational pressure to board-ready confidence.

Visual evidence and structured service packaging help buyers understand the path from risk to outcome.

01

Enable secure file access and collaboration

02

Improve control over business file sharing

03

Support recovery and continuity for file workflows

DECISION PATH

How the offer becomes an executive outcome.

Soteria Cloud positions the capability as a managed operating model, not a disconnected tool purchase.

DECISION DRIVERS

Cloud file sync and share

Mobile and remote file access

User and group controls

File activity visibility

PROOF POINTS

- Acronis file service technology
