

ACRONIS-POWERED. SOTERIA CLOUD DELIVERED.

Soteria Cloud Advanced Data Loss Prevention

Control where sensitive data goes before leakage becomes a business problem.

Data protection and compliance

Total Data Protection

Zero Downtime. Zero Data Loss.

PROTECTION OUTCOME

For organizations that need stronger oversight of endpoint data movement, removable media, and sensitive information handling.

Data loss often happens through everyday channels: USB devices, unmanaged transfers, local copies, and accidental disclosure.

WHY IT MATTERS

Protection that connects technology to business resilience.

Data loss often happens through everyday channels: USB devices, unmanaged transfers, local copies, and accidental disclosure.

SOTERIA CLOUD OFFER

Control where sensitive data goes before leakage becomes a business problem. Delivered as a Soteria Cloud service with onboarding, policy design, reporting, and local support.

UNDERLYING TECHNOLOGY

Acronis Advanced DLP and DeviceLock

BEST FIT

For organizations that need stronger oversight of endpoint data movement, removable media, and sensitive information handling.

POSITIONING

Data protection and compliance

01

Reduce unauthorized data movement

02

Improve visibility into sensitive data handling

03

Support governance and compliance programs

CAPABILITIES

What Soteria Cloud delivers.

Acronis technology provides the engine. Soteria Cloud adds service ownership, local support, and a practical path from protection planning to recoverability.

Core capabilities

- Device and port controls
- Content-aware data controls
- Endpoint DLP policy
- Discovery of sensitive data
- Activity logging
- Compliance-oriented reporting

Common use cases

- Protect regulated data
- Control removable media risk
- Support cyber insurance and audit conversations

Acronis and DeviceLock-backed capability

Soteria Cloud implementation support

Fits security and compliance bundles

SERVICE EXPERIENCE

From assessment to ongoing assurance.

Soteria Cloud helps customers move from risk and uncertainty to a managed protection service with clear onboarding, reporting, and support.

Data risk workshop

Soteria Cloud reviews the environment, key risks, and resilience priorities before rollout.

Policy design by role and device

Protection requirements are mapped into practical settings, policies, and responsibilities.

Endpoint rollout

The service is deployed with structured onboarding, visibility, and support ownership.

Governance reporting

Ongoing reporting, recovery checks, and service reviews keep protection measurable.
