

ACRONIS-POWERED. SOTERIA CLOUD DELIVERED.

Soteria Cloud Advanced Management

Operational management that supports protection, patching, and endpoint reliability.

RMM and endpoint operations

Total Data Protection

Zero Downtime. Zero Data Loss.

PROTECTION OUTCOME

For MSPs and IT teams that need endpoint visibility and management inside the same cyber resilience conversation.

A protected device that is unmanaged, unpatched, or invisible can still become a business risk.

Acronis Powered by Acronis

RMM workflow and endpoint operations view

WHY IT MATTERS

Protection that connects technology to business resilience.

A protected device that is unmanaged, unpatched, or invisible can still become a business risk.

SOTERIA CLOUD OFFER

Operational management that supports protection, patching, and endpoint reliability. Delivered as a Soteria Cloud service with onboarding, policy design, reporting, and local support.

UNDERLYING TECHNOLOGY

Acronis Advanced Management

BEST FIT

For MSPs and IT teams that need endpoint visibility and management inside the same cyber resilience conversation.

POSITIONING

RMM and endpoint operations

01

Improve endpoint operational visibility

02

Make protection policies easier to maintain

03

Connect management and security into one service package

CAPABILITIES

What Soteria Cloud delivers.

Acronis technology provides the engine. Soteria Cloud adds service ownership, local support, and a practical path from protection planning to recoverability.

Core capabilities

- Remote monitoring and management
- Patch and software management options
- Hardware and software inventory
- Policy-based operations
- Alerting and reporting
- Service workflow support

Common use cases

- Managed endpoint operations
- Backup and security policy hygiene
- Customer environment standardization

Acronis management capability

Soteria Cloud operational framing

Works with backup, EDR, and remote support

SERVICE EXPERIENCE

From assessment to ongoing assurance.

Soteria Cloud helps customers move from risk and uncertainty to a managed protection service with clear onboarding, reporting, and support.

Endpoint estate review

Soteria Cloud reviews the environment, key risks, and resilience priorities before rollout.

Management policy design

Protection requirements are mapped into practical settings, policies, and responsibilities.

Agent rollout

The service is deployed with structured onboarding, visibility, and support ownership.

Monthly operations reporting

Ongoing reporting, recovery checks, and service reviews keep protection measurable.
