

ACRONIS-POWERED. SOTERIA CLOUD DELIVERED.

Soteria Cloud Advanced Security + EDR

Endpoint protection and detection connected to recovery, not isolated from it.

Endpoint security

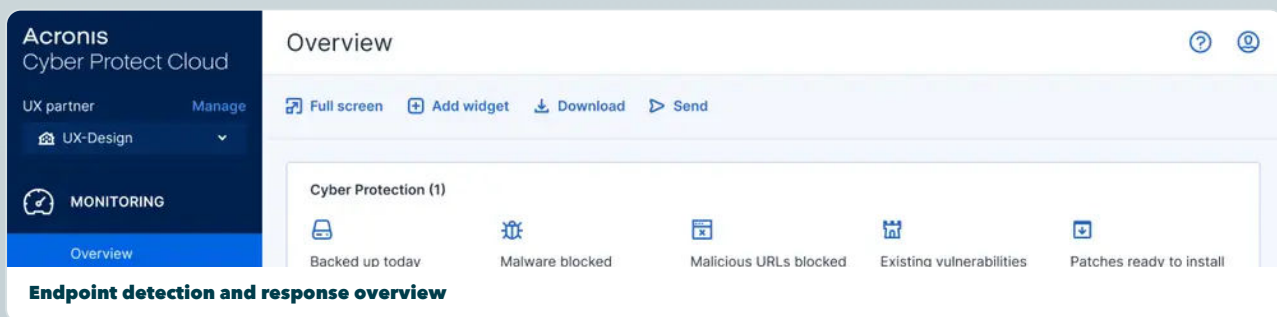

Total Data Protection

Zero Downtime. Zero Data Loss.

PROTECTION OUTCOME

For teams that need modern malware protection, behavioral detection, and response capability without adding another disconnected console.

Security incidents become business incidents when detection, containment, and recovery are not connected.

Acronis Powered by Acronis

WHY IT MATTERS

Protection that connects technology to business resilience.

Security incidents become business incidents when detection, containment, and recovery are not connected.

SOTERIA CLOUD OFFER

Endpoint protection and detection connected to recovery, not isolated from it. Delivered as a Soteria Cloud service with onboarding, policy design, reporting, and local support.

UNDERLYING TECHNOLOGY

Acronis Advanced Security and EDR

BEST FIT

For teams that need modern malware protection, behavioral detection, and response capability without adding another disconnected console.

POSITIONING

Endpoint security

01

Detect and respond to endpoint threats faster

02

Reduce ransomware impact through protection and recovery alignment

03

Give customers a clearer security service story

CAPABILITIES

What Soteria Cloud delivers.

Acronis technology provides the engine. Soteria Cloud adds service ownership, local support, and a practical path from protection planning to recoverability.

Core capabilities
