

ACRONIS-POWERED. SOTERIA CLOUD DELIVERED.

Soteria Cloud Cloud Security

Visibility and control for cloud workloads, networks, and security posture.

Cloud workload protection

Total Data Protection

Zero Downtime. Zero Data Loss.

PROTECTION OUTCOME

For organizations building on Azure or cloud infrastructure that need clearer control over exposure and configuration risk.

Cloud environments move quickly. Misconfiguration, weak visibility, and unmanaged network exposure create avoidable risk.

Cloud security service configuration view

WHY IT MATTERS

Protection that connects technology to business resilience.

Cloud environments move quickly. Misconfiguration, weak visibility, and unmanaged network exposure create avoidable risk.

SOTERIA CLOUD OFFER

Visibility and control for cloud workloads, networks, and security posture. Delivered as a Soteria Cloud service with onboarding, policy design, reporting, and local support.

UNDERLYING TECHNOLOGY

Acronis Cloud Security and Smart Firewall

BEST FIT

For organizations building on Azure or cloud infrastructure that need clearer control over exposure and configuration risk.

POSITIONING

Cloud workload protection

01

Improve cloud security posture

02

Control network exposure with clearer policy

03

Support cloud governance without slowing delivery

CAPABILITIES

What Soteria Cloud delivers.

Acronis technology provides the engine. Soteria Cloud adds service ownership, local support, and a practical path from protection planning to recoverability.

Core capabilities

- Cloud security posture visibility
- Azure onboarding guidance
- Smart firewall capabilities
- Configuration and policy review
- Security recommendations
- Operational reporting

Common use cases

- Azure security baseline
- Cloud firewall and exposure review
- Governed cloud workload onboarding

Acronis Cloud Security capability

Soteria Cloud implementation support

Positioned for practical cloud governance

SERVICE EXPERIENCE

From assessment to ongoing assurance.

Soteria Cloud helps customers move from risk and uncertainty to a managed protection service with clear onboarding, reporting, and support.

Cloud posture assessment

Soteria Cloud reviews the environment, key risks, and resilience priorities before rollout.

Policy and firewall design

Protection requirements are mapped into practical settings, policies, and responsibilities.

Deployment guidance

The service is deployed with structured onboarding, visibility, and support ownership.

Security review reporting

Ongoing reporting, recovery checks, and service reviews keep protection measurable.
