

ACRONIS-POWERED. SOTERIA CLOUD DELIVERED.

Soteria Cloud Complete BDR

Backup, continuity, and recovery packaged for real downtime events.

Business continuity

Total Data Protection

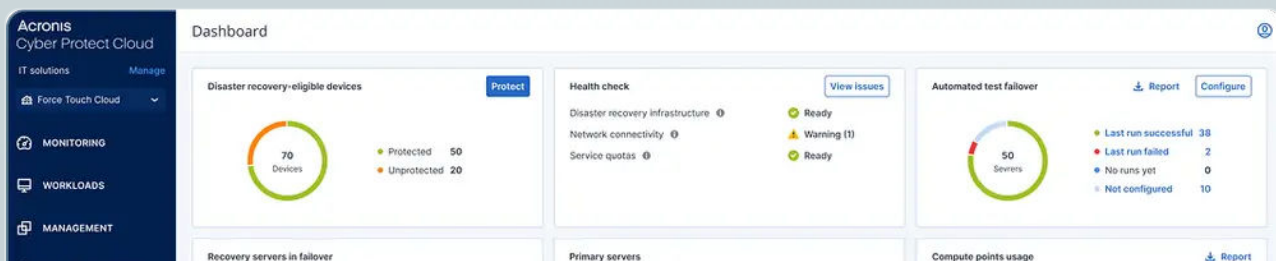

Zero Downtime. Zero Data Loss.

PROTECTION OUTCOME

For companies that need recovery options for systems, data, and service availability after a serious incident.

A backup file is not a continuity plan. Businesses need a practical route from outage to restored operations.

Acronis Powered by Acronis

Backup and continuity readiness dashboard

WHY IT MATTERS

Protection that connects technology to business resilience.

A backup file is not a continuity plan. Businesses need a practical route from outage to restored operations.

SOTERIA CLOUD OFFER

Backup, continuity, and recovery packaged for real downtime events. Delivered as a Soteria Cloud service with onboarding, policy design, reporting, and local support.

UNDERLYING TECHNOLOGY

Acronis Cyber Protect Cloud and Disaster Recovery

BEST FIT

For companies that need recovery options for systems, data, and service availability after a serious incident.

POSITIONING

Business continuity

01

Shorten recovery conversations during incidents

02

Protect production workloads with continuity goals in mind

03

Give leadership a clearer resilience plan

CAPABILITIES

What Soteria Cloud delivers.

Acronis technology provides the engine. Soteria Cloud adds service ownership, local support, and a practical path from protection planning to recoverability.

Core capabilities

- Backup and recovery
- Recovery orchestration options
- Workload protection planning
- Cloud recovery options
- Runbook-aligned service design
- Restore validation support

Common use cases

- Ransomware recovery planning
- Server failure and site disruption readiness
- Executive continuity assurance

Combines Acronis backup and DR capabilities

Delivered through Soteria Cloud service ownership

Built for clear recovery accountability

SERVICE EXPERIENCE

From assessment to ongoing assurance.

Soteria Cloud helps customers move from risk and uncertainty to a managed protection service with clear onboarding, reporting, and support.

Recovery objective workshop

Soteria Cloud reviews the environment, key risks, and resilience priorities before rollout.

Backup and DR policy design

Protection requirements are mapped into practical settings, policies, and responsibilities.

Implementation and validation

Ongoing reporting, recovery checks, and service reviews keep protection measurable.

Periodic recovery readiness reviews

Soteria Cloud reviews the environment, key risks, and resilience priorities before rollout.
