Built for disciplined backup operations

SERVICE EXPERIENCE

From assessment to ongoing assurance.

Soteria Cloud helps customers move from risk and uncertainty to a managed protection service with clear onboarding, reporting, and support.

Security and deployment assessment

Soteria Cloud reviews the environment, key risks, and resilience priorities before rollout.

Platform design

Protection requirements are mapped into practical settings, policies, and responsibilities.

Backup policy rollout

Protection requirements are mapped into practical settings, policies, and responsibilities.

Restore and operations validation

Ongoing reporting, recovery checks, and service reviews keep protection measurable.
