WHY IT MATTERS

Protection that connects technology to business resilience.

Protection services depend on storage that is resilient, scalable, and operationally manageable.

SOTERIA CLOUD OFFER

Resilient storage infrastructure for backup, file, and service provider workloads. Delivered as a Soteria Cloud service with onboarding, policy design, reporting, and local support.

UNDERLYING TECHNOLOGY

Acronis Cyber Infrastructure

BEST FIT

For service providers and organizations that need scalable storage infrastructure under a cyber resilience strategy.

POSITIONING

Storage and infrastructure

01

Support protected storage growth

02

Improve resilience for backup and file services

03

Create infrastructure that supports recurring cyber resilience services

CAPABILITIES

What Soteria Cloud delivers.

Acronis technology provides the engine. Soteria Cloud adds service ownership, local support, and a practical path from protection planning to recoverability.

Core capabilities

- Software-defined storage
- Backup gateway options
- S3-compatible storage use cases
- Storage appliance support
- Multi-node infrastructure design
- Operational monitoring

Common use cases

- Backup storage platform
- Service provider storage layer
- Private or hybrid cyber resilience infrastructure

Acronis Cyber Infrastructure technology

Soteria Cloud architecture and support

Supports cloud and hybrid protection offers

SERVICE EXPERIENCE

From assessment to ongoing assurance.

Soteria Cloud helps customers move from risk and uncertainty to a managed protection service with clear onboarding, reporting, and support.

Infrastructure sizing

The capability becomes part of a managed Soteria Cloud protection experience.

Storage design

Protection requirements are mapped into practical settings, policies, and responsibilities.

Deployment and integration

The service is deployed with structured onboarding, visibility, and support ownership.

Monitoring and lifecycle support

The capability becomes part of a managed Soteria Cloud protection experience.
