

ACRONIS-POWERED. SOTERIA CLOUD DELIVERED.

# Soteria Cloud Cyber Protect Cloud

One cloud platform for backup, cyber protection, management, and recovery.

Cyber protection platform

Total Data Protection

Zero Downtime. Zero Data Loss.

## PROTECTION OUTCOME

**For businesses and MSPs that want fewer tools, faster recovery, and a single operational view of protection.**

Security tools, backup tools, and management tools often live in separate silos. That creates blind spots when downtime, ransomware, user error, or device failure hits.

| Name                   | Tenant status | Management mode      | Billing mode                 | 2FA status | 7-day history |
|------------------------|---------------|----------------------|------------------------------|------------|---------------|
| Partner Workspace 1    | Active        | Full access          | Service-based (per workload) | Enabled    |               |
| Soteria Cloud Internal | Active        | By canister provider | Service-based (per workload) | Enabled    |               |

Tenant coverage and protection readiness view

**WHY IT MATTERS**

# Protection that connects technology to business resilience.

Security tools, backup tools, and management tools often live in separate silos. That creates blind spots when downtime, ransomware, user error, or device failure hits.

**SOTERIA CLOUD OFFER**

**One cloud platform for backup, cyber protection, management, and recovery. Delivered as a Soteria Cloud service with onboarding, policy design, reporting, and local support.**

**UNDERLYING TECHNOLOGY**

**Acronis Cyber Protect Cloud**

**BEST FIT**

**For businesses and MSPs that want fewer tools, faster recovery, and a single operational view of protection.**

**POSITIONING**

**Cyber protection platform**

**01**

**Reduce tool sprawl across backup and security**

**02**

**Recover workloads and SaaS data with more confidence**

**03**

**Give service teams a single protection story to sell and support**

**CAPABILITIES**

# What Soteria Cloud delivers.

Acronis technology provides the engine. Soteria Cloud adds service ownership, local support, and a practical path from protection planning to recoverability.

## Core capabilities

- Workload backup and recovery
- Endpoint and server protection
- Microsoft 365 and Google Workspace protection options
- Remote monitoring and management options
- Central policy, monitoring, and reporting
- Service provider-ready tenant management

## Common use cases

- Standardize customer protection packages
- Replace fragmented backup and endpoint tools
- Create a recurring cyber resilience service

**Acronis-powered protection stack**

**Soteria Cloud branding, onboarding, and support**

**Aligned with Total Data Protection positioning**

**SERVICE EXPERIENCE**

# From assessment to ongoing assurance.

Soteria Cloud helps customers move from risk and uncertainty to a managed protection service with clear onboarding, reporting, and support.

**Discovery and workload inventory**  
  
The capability becomes part of a managed Soteria Cloud protection experience.

**Policy design by workload type**  
  
Protection requirements are mapped into practical settings, policies, and responsibilities.

**Backup, security, and management rollout**  
  
The service is deployed with structured onboarding, visibility, and support ownership.

**Ongoing reporting and support**  
  
Ongoing reporting, recovery checks, and service reviews keep protection measurable.

|                |                                                                                                            |
