

CYBER RESILIENCE AND RECOVERABILITY

Soteria Cloud Total Data Protection

A cyber resilience model that shifts the conversation from backup success to proven recoverability.

For executives, business owners, MSPs, and resellers that need confidence that critical data, systems, and SaaS services can be recovered when the business is under pressure.

Executive issue: Most businesses only discover recovery gaps when the situation is already business-critical. Backup success alone does not prove that systems, users, and evidence can be restored fast enough.

- 01 Move from backup tool ownership to recoverability assurance.**
- 02 Create a clearer resilience baseline across endpoints, servers, SaaS, security, and recovery.**
- 03 Reduce uncertainty during ransomware, deletion, corruption, and outage events.**

Acronis Cyber Protect Cloud
Complete cyber protection. Simplified.

Dashboard

- OVERVIEW: 2,835 Protected workloads
- PROTECTION STATUS: All protected (No issues)
- ACTIVITY: No active alerts
- WORKLOADS: Servers (1,320), Workstations (1,275), Mobile devices (240)
- STORAGE: 2.4 TB Total storage, Securely stored in the cloud

Risk
Identify and prioritize what matters most.

Control
Apply proven protection across your environment.

Outcome
Ensure business continuity and drive better results.

Secure. Compliant. Always Protected.
Back up, protect, and recover everything from a single cloud-native platform.

- Complete Data Protection
- Built-in Cybersecurity
- Easy to Manage and Automate
- Scalable for Any Business

EXECUTIVE CONTEXT

The business reason this matters.

The brief frames the operational pressure, the commercial reason to act, and the outcomes leadership should expect from the Soteria Cloud approach.

BUSINESS ISSUE

Most businesses only discover recovery gaps when the situation is already business-critical. Backup success alone does not prove that systems, users, and evidence can be restored fast enough.

SOTERIA CLOUD POSITION

A cyber resilience model that shifts the conversation from backup success to proven recoverability. Soteria Cloud packages the capability around business outcomes, operational ownership, and a clearer path from decision to adoption.

BEST FIT

- Organizations that cannot afford uncertain recovery.
- MSPs standardizing backup, security, and recovery bundles.
- Resellers moving from product licensing to resilience outcomes.
- Leadership teams preparing cyber insurance or board risk conversations.

From operational pressure to board-ready confidence.

Visual evidence and structured service packaging help buyers understand the path from risk to outcome.

01

Move from backup tool ownership to recoverability assurance.

02

Create a clearer resilience baseline across endpoints, servers, SaaS, security, and recovery.

03

Reduce uncertainty during ransomware, deletion, corruption, and outage events.

04

Give leadership a stronger business continuity conversation.

05

Package resilience as an outcome-led managed service.

DECISION PATH

How the offer becomes an executive outcome.

Soteria Cloud positions the capability as a managed operating model, not a disconnected tool purchase.

DECISION DRIVERS

Recoverability proof

Business continuity confidence

Ransomware impact reduction

Managed service accountability

PROOF POINTS

- Acronis-powered cyber protection stack.
- Soteria Cloud packaging, onboarding, and service ownership.
- Dedicated pricing and commit-level documentation.
- Recoverability, resilience baseline, and operational reporting narrative.
